

Louisiana

When a family or individual is faced with a progressive condition such as DM1 or DM2 they are often presented with additional financial expenses as well as loss of a steady income. This section attempts to gather financial resources that are available on a state level for persons living in the United States. By no means is this section complete; we invite you to share with us any resources you've identified.

This is an on-going project. We will add more resources as we gather them; please send us resources you know of that are not currently listed.

Please be advised that each organization has its own eligibility and application requirements. None of these organizations are affiliated with the Myotonic Dystrophy Foundation. We hope you will share your experiences with us – let us know if you are successful in finding a good resource to help your family.

Financial Resources

Early Steps: A program through the Louisiana Department of Health, EarlySteps provides services to families with infants and toddlers aged birth to three years who have a medical condition likely to result in a developmental delay, or who have developmental delays. EarlySteps services are designed to improve the family's capacity to enhance their child's development. <http://www.dhh.louisiana.gov/index.cfm/page/139/n/139>
