

Paid Internship – [Apply Here](#)

**Job Title:** Intern, Health Economics and Outcomes Research

**Location:** Summer 2022 Internship role may be remotely based

### **Company Overview**

Avidity Biosciences is pioneering a new class of oligonucleotide-based therapies called AOCs designed to overcome the current limitations of oligonucleotide therapies in order to treat a wide range of serious diseases. We utilize our proprietary AOC platform to design, engineer and develop therapeutics that combine the tissue selectivity of monoclonal antibodies (mAbs) and the precision of oligonucleotide-based therapies in order to access previously undruggable tissue and cell types and more effectively target underlying genetic drivers of diseases. We are passionate about the impact of every employee in bringing these potentially transformative therapeutics to patients in need. Make a difference with us.

### **General Description**

The HEOR intern will participate in HEOR projects related to Avidity's muscle franchise. The intern will develop and conduct HEOR research. In addition, the intern will learn problem-solving and strategy development skills to help prepare for a career in the pharmaceutical or biotech industry.

The intern will work cross-functionally on HEOR projects, primarily real-world evidence generation and assessments related to the burden of disease. The intern will also contribute to the development of internal/external communication materials such as slide decks, presentations, and publications.

### **Responsibilities**

- Assist HEOR Sr. Director to execute real world data analysis to support Avidity's FSHD and, DMD and DM1 programs
- Gain experience in generating evidence using retrospective claims databases and prospective data collection
- Conduct literature reviews to identify evidence gaps, and update the evidence generation plans
- Assist in the development of US payer research and communications tools

### **Educational Requirements**

Currently pursuing an advanced degree (MPH, PhD, Pharm D, MS,) in Health Economics, Outcomes Research, Epidemiology, Pharmacoeconomics, or related discipline

## **Qualifications**

- Proficiency in MSOffice skills (Word, Excel, Outlook, PowerPoint)
- Completion of 1 year of foundational courses in HEOR, epidemiology or health services
- Self-motivated, organized, collaborative and can manage multiple projects

## **Frequently Asked Questions:**

### **Can I participate in Avidity's Internship Program while actively enrolled in an ongoing clinical trial?**

Avidity is committed to improving the lives of people impacted by diseases through the research and development of new drugs. While we are grateful for your interest in our internship program, we believe your commitment to clinical research comes first. Please consider expressing interest in our internship program once you complete your participation in the clinical trial.

*This internship pays \$20/hour. Work hours may be flexible.*
